"NORWAYS"

IS STRICTLY a sanatorium for the care and treatment of the sick. It is not a place for persons in search of amusement. The institution is composed of separate buildings and is thoroughly equipped in every particular. The grounds are extensive and beautiful. The cuisine is excellent. Every method of treatment of known value is employed by skilled attendants and specially trained nurses. Patients suffering from all forms of **nervous disease,** *both medical and surgical,* rheumatism, kidney troubles, the various drug habits, are accepted. *Paralytic children* and those in need of the "rest cure" are especially treated. *Only mild mental cases are taken.* Separate buildings for such patients.

Terms. All charges are payable weekly, one week in advance, without exception. They range from $35 to $90 per week, depending upon necessities of treatment and location of room. Regular sanatorium rates include board, room, nursing, treatment and physician's fees. There are no extra charges, unless a special nurse ($20 to $25 per week) is demanded. Average rate, $50 per week.

The first complete examination is $10 to $25, whether a patient remain in the institution or not.

Fees for operations depend upon special conditions and are not included above.

Outdoor patients will be charged according to the treatment employed.

Garments. Patients should wear comfortable clothing. No finery is advocated. Each person should have a bath or lounging robe.

Every patient must adhere to the printed rules and regulations of the sanatorium. These are posted in proper places about the buildings. No exceptions will be made to them in any case.

N. B. No person should be brought to the institution who is too weak to be safely removed from home. For further information apply to "Norways" Sanatorium.

STREET AND AVENUE GUIDE
AND
DIRECTORY OF HOUSEHOLDERS

[COPYRIGHT 1915]

THE Street Directory is an alphabetical arrangement of the names of the Streets and Avenues of the city. By the decimal system of numbering houses adopted in this city, one hundred numbers are allotted to each square. On streets running north and south the numbering begins at Washington street. The streets running east and west are numbered East and West from Meridian street. All other streets not commencing at either of the above points are numbered in accordance with this system. Even numbers occur on the north and west sides of streets and odd numbers on the south and east sides. The names of intersecting streets and avenues, printed in italics, are given in the order in which they occur, which enables one to tell between what streets a certain number is. For instance, you have 315 Bicking street: by reference to the Street Directory, you find Alabama intersecting at 300 and High at 350; consequently, the place you wish to find is between Alabama and High streets.

The index letter shown in parenthesis after street descriptions or intersecting streets indicate the nearest car line to that point. To find what car runs nearest to a given number, refer to the street and number, and the letter given after the nearest intersecting street indicates the car line in the list of routes on opposite pages.

In this department of the City Directory the number of each building on the street is given in numerical order and opposite the number is placed the name of the householder. In the business blocks containing offices, the occupant of each room is shown by number where practicable.
